

Proudly introduce to you a package tour which is none likely a tour you can find anywhere. Visiting Cham Island with us at the cost of US\$125/pax and subtract US\$15/each to the price on everyone coming along.

Regularly, visitors will purchase a normal tour to Cham Island for around 5 hours visit. For such tour, you will be taken to a very touristy port and beach where there are hundreds of people trying to find their own space. The tour is really rushing with under-standard attractions and activities. We offer you a much better way to see and feel the island. Travelling with us to a fishermen's village where you can stay with local people, or spending your time on a less crowded beach with your family and friend. Stay overnight and hop on a boat going squid fishing will bring you the experience of a life time. Don't wait your time but call us now for the summer is almost over.
